FGCU COMPLETE

B.A. in Integrated Studies
 B.A. in Interdisciplinary Entrepreneurship Studies
 B.S. in Resort & Hospitality Management

Earn your Bachelor's degree
 while *maintaining* your lifestyle!

- ▶ Have some college credit?
- ▶ Interested in completing your Bachelor's degree?
- ▶ Are work or family responsibilities preventing you from attending college full-time?

OVERVIEW OF FGCU COMPLETE

An innovative degree-completion program that is scheduled to begin enrollment in late 2018 with a start in Spring 2019, **FGCU Complete** offers students who have previously earned college credits the chance to work toward a Bachelor's degree in one of three programs:

- ▶ **Bachelor of Arts in Integrated Studies:** This degree combines courses across programs to produce diverse learning and a better understanding of the interrelationships between academic subjects.
- ▶ **Bachelor of Arts in Interdisciplinary Entrepreneurship Studies:** Like the integrated studies program, this entrepreneurship degree offered through the Institute for Entrepreneurship also crosses academic disciplines.
- ▶ **Bachelor of Science in Resort & Hospitality Management:** This curriculum focuses on the essential leadership skills needed to manage the complex operations of resort, private club, restaurant, and other dynamic hospitality properties.

WHO FGCU COMPLETE TARGETS

FGCU Complete students do the same coursework as traditional FGCU students working toward the same degrees, but at times and locations more convenient for those who don't have the flexibility of full-time students. The program is ideal for candidates who work full-time or are otherwise unable to attend traditional university classes and events due to other obligations.

THE FGCU COMPLETE PATH

Students fulfill degree requirements by taking a combination of on-campus, in-community and online classes, depending on their program. **FGCU Complete** students are full-fledged Eagles who enjoy the same privileges as all full-time students, and have the option (after consultation with an academic advisor) of taking some classes on campus with traditional students. Advisors also work with **FGCU Complete** students on an academic timeline for graduation, depending on the student's situation (credits already earned, course-load capability, grades, etc.).

ADMISSION REQUIREMENTS

FGCU Complete students must meet the same admission standards as all transfer students seeking to earn a degree:

- ▶ At least 30 transferable credit hours
- ▶ 2.5 minimum GPA
- ▶ At least one 3-credit English composition course and one college-level math course with a grade of at least C in both
- ▶ High-school or college completion of the foreign-language requirement

Transfer credit is determined by the Office of Undergraduate Admissions by evaluating students' transcripts. Not transferable: technical, vocational, physical-education, remedial courses, or courses in which a grade below D-minus was received.

Students who don't meet all admission criteria are encouraged to enroll as non-degree-seeking students before immersing themselves in a degree-seeking program.

HOW TO APPLY

To apply as a degree-seeking student, go to: **apply.fgcu.edu** and create an Eagle Account, then complete the online application.

To apply as a non-degree-seeking student for up to 15 credit hours, create a Future Eagle Account at the same web address and select "Non-Degree" on the online application (*NOTE: Paper applications may be required to meet enrollment deadlines.*)

There is a one-time, non-refundable application fee of \$30. Students receive decisions on their application within a couple weeks, and those admitted as degree-seeking students will be directed to register for orientation.

TUITION AND FINANCIAL AID

Tuition is the same as FGCU's regular in-state fees: \$204 per credit or \$612 per 3-credit class. Students can apply to the university's Office of Financial Aid and Scholarships for funding assistance, and are encouraged to fill out the FAFSA (fafsa.gov) and FGCU Foundation Scholarship (fgcu.edu/scholarships) applications to maximize funding opportunities.

Students who believe they are eligible as military veterans for any of the educational-benefit programs administered by the Veterans Administration should call (239) 590-7914.
