GREATER FORT LAUDERDALE

ANTI-AGING MASSAGE

A dual modality massage combining Swedish & Deep Si stimulation to relax tight muscles, while treating your skin's overall appearance. The anti-aging benefits of coconut and argan oils, rich in anti-oxidants and anti-inflammatory essential fatty acids, pamper your skin to prevent the breakdown of skin's elasticity, fight free radicals, and help reduce the signs of aging by promoting collagen production and cell turnover. While warm stones release muscle tension and soreness, a pure plant extract and organic oil treatment promotes core levels of healing and new cell growth.

- * Combination Swedish & Deep Si massage using anti-aging massage cream
- * Warm stone enhancement
- * Yoga Balm® treatment enhancement
