WELCOME TO FJORD NORWAY AND THE REGIONS OF SOGNEFJORD AND NORDFJORD! [Visit Sognefjord](#) & [Visit Nordfjord](#)

Fjord Norway, on the west coast of Norway, is a region full of contrasts. Known for its stunning fjord landscape, with glaciers, roaring waterfalls and charming fjord cities, most people know it as a summer destination. The region offers a great diversity in cultural experiences, history and heritage and exciting local food and drinks. Local food like the best seafood in the world, lamb, cheese and fruit and berries are among our specialties. Visit the Fjord Norway region in the wintertime and the experience will be very different: You will get close to nature, experience the season and the weather traveling in the fjords in an unfamiliar season gives different, but exciting experiences.

The Sognefjord is the longest fjord in Norway and is perfectly located with easy access from both Bergen and Oslo. With the largest glacier on mainland Europe, the most beautiful train journey in the world and UNESCO listed Nærøfjord you can visit all year around for once in a lifetime experiences, but most likely you will want to come back again and again...

Visit Sognefjord is the Destination Company for the King of the Fjords and consists of 7 municipalities and more than 200 members along the 204 km long Sognefjord. Our expertise is invaluable in your planning, and helps secure the quality of your trips to the region. Visit Sognefjord can assist with fam. trips as well as press tours for travel correspondents. Our [Sognefjord Guide](#) and newsletters are necessary tools for your planning. Our image bank contains a wide selection of photos for you to use free of charge [Sognefjord Image Bank](#).

Our interactive [Fjordmap](#) is a great tool to find new accommodation, activities, attractions and more and even specify the further on month or season you are traveling in.

Nordfjord lies between the largest mainland glacier in Europe and Norway's westernmost Atlantic cliff, beckoning you with spectacular mountains and valleys, rolling farmlands and a dramatic coastline. Here you are never far from wonderful – and easily accessible - travel experiences. Nordfjord is Norway at its highest, wildest, deepest, and most enjoyable. All in one fjord.

The destination company Visit Nordfjord AS is an official regional tourist board for the marketing and sales of Nordfjord as a destination, nationally and internationally. The main task of the company is to help create value, better profitability and to create ripple effects for the Nordfjord region throughout the year. Nordfjord consists of these municipalities: Stryn, Stad (former Eid and Selje), Gloppen and Bremanger.
