

Invitation to Fam-trip to Bodø 21-23 October 2022

In 2024, Bodø will become the first European Capital of Culture north of the arctic circle! On this trip, we will proudly show you how it all began, how our famous fjords and mountains were made, when we explore the spectacular surroundings around Bodø.

You will experience and learn how Norwegians have lived above the arctic circle for thousands of years. You will get the opportunity to explore the whole region of Bodø and learn how the city transformed from cold to cool....
And hopefully, you will also get to meet Lady Aurora, the northern lights!

Why Bodø?

- **Activities and experiences powered by nature!**

In the Bodø region you have a huge variety of options when it comes to activities and experiences in the nature. The city centre of Bodø is within easy reach of hiking and climbing tours, skiing and RIB tours to **Saltstraumen**, the world's strongest maelstrom. In the archipelago, the island of **Kjerringøy** is one of Norway's best-preserved coastal trading places. Bodø is located in **Salten**, which is a natural gateway to explore both the region's beautiful coastline and the unspoilt nature inland.

- **Culture**

The city of **Bodø**, known as Northern Norway's "mini metropole", is full of quirky shops, yummy food, and major cultural events. From the festivals Parken and Nordland Music Festival to all the events in the cultural centre Kulturkvarteret Stormen all year round – it's no coincidence that the city will be the European Capital of Culture in 2024!

- **Rich culinary traditions**

Explore Northern Norway's rich culinary traditions and try some of the freshest seafood you can imagine. Preferably with a little something from one of the local breweries. Finish off the evening with a cocktail in one of the city's beloved sky bars, where you have a panoramic view of the sea and mountains.
