Market insight Sweden

We have seen an increase in executed and a demand for digital company events; big and small, since mid/end of 2020. The need of communicating with staff is huge at the moment as many employers are planning for prolonged «work from home» situation until after summer vacations.

The work situation varies a lot from MICE agent to MICE agent.

- Some have established a position within the new demand for digital solutions and can now see increased income.
- MICE agents specilized in travel are still in a very difficult situation and find it hard to see an end to this.

Most bookings that was moved from 2020 to 2021 are now cancelled or executed as digital events. We see some new production and requests for abroad travel and MICE arrangements in 2022 and 2023 coming in from clients now.
