## WELCOME TO PARK CITY! ENJOY OUR WINTER 2018 PRESS GUIDE!

THE BIGGEST AND THE BEST. Any ski town would be fortunate to be the home of two mountain resorts within its limits, but Park City isn't just any town and our two mountain resorts aren't just any resorts – Park City Mountain is distinct for having the largest lift-accessible ski terrain in the United States and Deer Valley is consistently rated at the very top of the rankings in the USA for its service levels, grooming and culinary excellence, to name just a few. Park City also is recognized for its Olympic legacy, home of the last games to be hosted on U.S. soil (2002) and the town has the largest concentration of luxury ski-in/ski-out accommodations in North America.

Park City's two ski resorts have a combined 62 lifts with over 400 runs on 9,526 skiable acres. The resort experience is enhanced by an authentic, historic silver mining town legacy, an array of luxury experiences, a 12-month calendar of festivals including America's preeminent independent film festival (Sundance), award-winning dining and a vibrant nightlife for an unparalleled visitor experience. ## NORTH AMERICA'S MOST ACCESSIBLE SKI DESTINATION

Park City is home to two world-class ski resorts filled with famously light Utah powder. But beyond the Greatest Snow on Earth®, Park City is so much more than your typical ski town. With award-winning dining, incredible shopping, and vibrant nightlife only 35 minutes from Salt Lake City International Airport, Park City is also the "Festival City" of the Rocky Mountains.

Skiing, snowboarding, sleigh rides, dining, lodging and festivals all in one picturesque, historic silver mining town? Yes. All that.

### A CAR-FREE GETAWAY

One of the most attractive aspects of our town is that it can be visited **without renting a car**. Frequent shuttles from Salt Lake City International Airport (25 mi) and abundant in-town resources including a **free bus and trolley system**, hotel shuttles, robust Uber, Lyft, and taxi offerings means you can leave the driving to us. Last year, Park City was a test market for uberSKI, Uber's niche market for vehicles that are four-wheel drive with ski and snowboard carrying capabilities.

At the end of June 2017, Park City Municipal Corporation added a fleet of six new zero-emission buses to its public transit system. These buses operate on an express route to connect riders from Kimball Junction to Old Town (Main Street) without additional stops. Park City is the first mountain town in North America to operate a fleet of zero-emission buses.

## AN OLYMPIC LEGACY

The 2002 Winter Olympic Games, held in Salt Lake City and the surrounding region, revolutionized the town of Park City to become a thriving ski mecca for both domestic and international guests. Today, the five Olympic venues that Park City constructed for the Games remain in vibrant condition for guests and athletes alike to enjoy: Utah Olympic Park, Olympic Ice Oval, Deer Valley Resort, Park City Mountain, and Soldier Hollow. The Olympic rings, symbols, flags, and statues remain intact around town, keeping the spirit alive.

Park City remains an active training ground for many of the national winter sports teams, including home to the United States Ski Association (USSA). Utah Olympic Park facilities continue to play a vital role in the training of Olympic athletes in both the summer and winter months.

In August 2017, the Olympic Bids for the Summer Games of 2024 and 2028 were announced and awarded to Paris (2024) and Los Angeles (2028). For the 2026 Winter Olympics, Park City has submitted candidacy for the bid, which will be announced in October 2019.

## FROM MINING SILVER TO MINING SNOW - PARK CITY IS STEEPED IN COLORFUL HISTORY

Park City, Utah was put on the world map as it helped host the 2002 Olympic Winter Games, deemed the most successful Winter Olympics ever. Hundreds of thousands of visitors from around the world filled the town during those 17 days to watch the world's best athletes compete for Olympic gold; yet more than 130 years ago, a rush of people flocked to Park City seeking a different precious metal - silver. Park City was incorporated as a city in 1884. The mountains' abundant silver veins attracted adventurers from around the world in the late 1860s. During its mining height, those mountains surrounding Park City yielded \$400 million in silver and created 23 millionaires, including the father of newspaper publisher William Randolph Hearst.

However, with mineral prices falling in the 1930s, the boom years ended and residents began "mining" the treasure on the mountains, discovering what would later be termed The Greatest Snow on Earth®. Today, Park City is a unique blend of the old and new. Sixty-four of Park City's buildings are listed on the National Register of Historic Places, many of which are located along Historic Main Street, and more than 1,200 miles of tunnels wind through the surrounding mountains, remnants of the mining era.

An interactive pictorial of Park City's colorful mining and ski history is on display at the newly renovated [Park City Museum](#), located at 528 Main Street in the heart of Park City's Historic Old Town district. Park City's Olympic Welcome Plaza, located at the junction of Highway 224 and Highway 248, pays tribute to both Park City's role in the 2002 Olympic Winter Games and the past 18 Winter Olympic host cities. The Joe Quinney Winter Sports Center at the Utah Olympic Park features films, interactive exhibits and museums and Olympic memorabilia that highlight Park City's long involvement in winter sports.

## EVERY MEETING COULD USE A FEW MOUNTAINS

Park City's alpine setting offers over 30 venues with 125,000 square feet of professional meeting space. From corporate retreats to weddings, conferences and reunions, groups will be surrounded by mountain vistas and exceptional service. Private group dining, group-friendly activities and easy access will make Park City your preferred meeting and group destination.
