Mr. Black,

The aircraft traffic over your area is due to the Temporary Flight Restriction (TFR), which is in place for the security of the President while he is in residence at Maralago.

There are no Sound Insulations programs or funding available.

Thank you for your comments.

**Noise Comments**

**Comments/Suggestions:** Deafening noise from departing flights over my home from as early as 6:00 a.m. on Friday 4/14/2017. Previously, last weekend, the noise from departing flights was also disturbing and distressing. The airport Noise Abatement Program should offer free or affordable solutions to residents to soundproof their homes. I am suffering from sleep deprivation and other symptoms caused by the deafening noise being generated by recent aircraft deviations in flight path departures.
