Ms. McKinney,

The flight paths here at PBI remain unchanged with the exceptions of the TFR put in place for the security of the President.

The increased traffic over your area happens when the crosswind runway is in use. The runway is an active runway although it is infrequently used.

Please contact me any additional information you may require.

Thank You

Noise Comments	
Comments/Suggestions:	I live Southeast of the airport off of Dixie between Southern and Forest Hills. The number of flights over our neighborhood this past weekend and into today is ridiculous!! It's bad enough we have to put up with it when our trump is in town...but to put up with it on a daily basis is intolerable. We tried to sit in our back yard this weekend and were chased inside by the noise. Is there a reason for the different flight take off patterns? We live in a nice family neighborhood and the costant roar is making life miserable!
Incident Date:	04/30/2018
Incident Hour:	8

Incident Minute: 10

Incident AM PM: A.M.

Incident Involving: Aircraft, Departure, Off Flight Path
