**Attachments:** LNA FEB 4 16.pdf

Mr. Haines,

The three helicopters are operated by PB Helicopters.

I have contacted the company. They are aware of the comments and I provided the information depicted on the attached flight tracking map.

These e-mails will be posted to the website.

To insure your comments are automatically logged and posted, please post them at **PBIA.org**.

Thank You

Casandra,

I asked you on Feb. 4 to tell me who was operating these helicopters and to date I have no response from you. I also alerted you I would be checking the website to see that my comment and your response were posted there in accord with the agreement Bruce Pelly and Commissioner Vana reached with residents some years ago.

There is nothing on the website. Why?

Regards,

Ron Haines

**Subject:** A trio of trouble at Lantana Airport

To Casandra Davis, Director of Noise Abatement and Community Affairs, Department of Airport, Palm Beach County

Casandra,

The whole trio of almost consecutive numbers was above my head today, teaching another generation of helicopter pilots that it's ok to ignore the county-preferred noise abatement procedures and do repetitive training rotations over the heads of neighbors in county-designated noise sensitive neighborhoods.

N471AT, N475AT, and N479AT were all there, again and again and again.

Please tell me who was operating these aircraft and precisely what you are going to do with my complaint. I will check the website in a week or so and make sure this complaint, and your response to it, are properly recorded there in accord with the agreement reached with Bruce Pelly, Commissioner Vana and the neighbors at a meeting of Lantana Airport neighborhoods several years ago.

All of the photos accompanying this were taken by me, today, from my yard.
