Subject: FW: Form Submission - Comment and Suggestion Form

Ms Hermes,

Monroe Drive is located directly beneath the flight path of the most utilized RWY 10L/28R (east/west). The tower assigns alternate headings during a high volume traffic, weather or a TFR mandates. An official review for purposes of changing the flight path would have to be agreed upon by all of the communities /municipalities surrounding the airport and recommended by the CCAN Committee.

Thank you for your comments.

Comment and Suggestion Form

General Information	
First Name:	Julie
Last Name:	Hermes
Email:	juliehc@aol.com
Comments:	Flights are using the runway that is directly overhead my home on Monroe Dr EXCLUSIVELY. Please direct the tower to fan out the flights or use the alternate runways. This is in need of an official review for inordinate and extreme NOISE.
