

EMT, Police & Fire Department Services

Many events, based on the number of attendees, will require additional security and/or medical staffing, such as Police Officers, EMTs or Fire Department Paramedics. When deciding upon your coverage, please consider the following:

- The Mountain America Expo Center has one First Aid station that can be utilized during an event.
- If your event has more than 1,000 attendees or there is a food function with more than 500 attendees, EMT or Paramedic coverage is required during the event.
- Please note that Paramedics are required to work in pairs.
- A Police Officer is required for any event day that has a minimum of 1,000 attendees.
- Licensee has the option to add additional police coverage. Please consult with your Event Manager.
- In most instances, police coverage will be during show hours. However, requirements may vary; please discuss with your Event Manager.
- In addition to the required police presence, arrangements can be made to secure uniformed or plainclothes officers to enhance your event's security.
- EMT, Police, Fire and Mountain America Security orders are charged at a minimum of four hours per shift.
- Orders for any of these services that are within two weeks of the first contracted day of the event will be subject to a premium hourly rate.
- Selecting Mountain America Security, EMT, Police or Fire coverage through the facility allows billing to be added directly to your final settlement invoice.

Please contact your Event Manager to discuss your coverage options.
