

Spanish Fork City requires those filming within Spanish Fork City to apply for a Film Permit through our website, [www.spanishfork.org](http://www.spanishfork.org). Under Online Services, select Business Licensing. From there, applicants will select Apply For A License. The next prompt will be to log into an existing account, or to register a new account. Once successfully registering an account the applicant will be directed to the interactive application.

Within the film permit application, applicants will need to identify the locations of filming. To expedite the process, it is best if the applicant attach a consent sheet from the entity/property owners where filming will take place. Applicants will also need to provide an explanation of the filming to take place as well as provide a site plan of the area planned for filming. If there are any special needs required for filming, those will need to be detailed out in the application.
